**VERIS INDUSTRIES WILL FEATURE OVER 9 NEW PRODUCTS & 5 NEW
PRODUCT CATEGORIES AT THE 2008 AHR EXPO**

PORTLAND, OR – December 20, 2007 –Veris Industries, a leader in automation system peripheral technology, will introduce over nine new products and five new product categories, at booth #129 in the Building Automation and Control Showcase of the 2008 AHR Expo in New York, NY.

Some of the new products and categories to be featured include:

- Hawkeye 308 Revolutionary Mini Adjustable Current Switch – smallest footprint available
- PXU Dry Media Pressure Sensor – industry’s most versatile pressure sensor...universal mount, configurable to either panel or duct
- E30 – extensive monitoring capabilities with a single High Density Branch Circuit Monitor...up to 92 circuits can be monitored on one RS-485
- Leak Detection Sensors – protect valuable equipment and data from water damage
- Flow Sensors – monitor liquid flow
- Surge Protection – protect equipment from costly damage and power surges
- And more...

Veris will offer interactive demos of various products at their booth. Stop by for an introduction to the products leading the industry in innovation.
